- To introduce educators to historical and current careers
- To demonstrate the value of community institutions to classroom education

### Overview:

In this hands-on workshop educators will be exposed to life aboard a ship as an artist and as a sailor during WWII through photographs, paintings and ship-board graffiti art. See items from the collection of Patriots Point Naval and Maritime Museum including photographs from world-renowned photographer Edward Steichen. Learn how to incorporate art into a variety of subjects as well as use it as a jumping-off point to explore specific moments in history. Finally, participants will tour the ship to see original graffiti and create their own mural.
